

Alpar Surface Mount Corner Guard

Models CG2-X (shown), CG3-X, CG135-X

Surface mount corner guards applied with adhesive or double sided foam tape provide the most economical and flexible corner protection solution for virtually any application. Available in standard 90 and 135 degree angles as well as virtually any custom angle, they provide protection in hard-to-match applications. Specify wing sizes between 1"(25.4) and 2-3/4"(69.9mm) and heights up to 12'0 (3658 mm).

DeTerra™ biobased polymer is made from 90% rapidly renewable materials that are grown, harvested and processed within 500 miles of our plant. It is free from persistent bioaccumulative toxins (PBTs) and is the only polymer wall protection that is petroleum-free. It is Class 1 fire-rated and outperforms PVC, ABS and PETG in most mechanical performance tests applicable to wall protection.

About Alpar Architectural Products

Alpar Architectural is a manufacturer of wall protection for use in healthcare, commercial and institutional buildings. All of our products are PVC-free and made from recycled and rapidly renewable materials, including deTerra™ biobased polymer, aluminum and stainless steel. Call for a catalog or visit our website to see our full line of handrails, crash rails, corner guards and sheet wall protection.
